How to Play Tower Rush Demo

Start by downloading the Tower Rush Demo app from the Galaxsys website. Once you’ve installed the app, you’ll be ready to begin playing.

When you launch the app, you’ll be presented with a brief tutorial that will teach you the basics of the game. This is a great opportunity to get familiar with the game’s controls and mechanics. Take your time to complete the tutorial, as it will help you understand how to play the game effectively.

Once you’ve completed the tutorial, you can start playing the game. The objective of Tower Rush Demo is to build and manage your own tower, while defending it from incoming attacks. You’ll need to collect resources, build structures, and train units to help you achieve this goal.

To collect resources, simply tap on the resource icons that appear on the screen. You can also collect resources by destroying enemy structures and units. Be careful, though, as the enemy will be trying to destroy your tower and steal your resources.

Building structures is an important part of the game. You can build towers, walls, and other defensive structures to help protect your tower from enemy attacks. You can also build resource-generating structures, such as mines and quarries, to help you collect resources more efficiently.

To train units, you’ll need to build a barracks and then select the type of unit you want to train. You can choose from a variety of units, each with its own unique abilities and strengths. Once you’ve trained your units, you can send them out to attack enemy structures and units.

As you play the game, you’ll earn experience points and level up. Each time you level up, you’ll unlock new units, structures, and abilities. This will help you progress through the game and take on more challenging opponents.

That’s it! With these simple steps, you’re ready to start playing Tower Rush Demo. Remember to take your time to learn the game’s mechanics and controls, and don’t be afraid to experiment and try new things. Good luck, and have fun!
